	On making and drawing up Order for leave to appeal to Privy Council	2 0 0

No fees are to be taken which would be payable by any public department ; but such fees shall nevertheless, where they would ordinarily be payable, be taken as paid for the purpose of assessing any costs which the Court shall direct to be paid ; and in cases where, if the defendant should be convicted, any prosecutor or informant would in the opinion of the Court be likely to obtain any part of the penalty or forfeiture, the Court may require the fees for service to be paid.

NOTES :—

- (a) In all cases the value of the property involved or the amount of damages claimed must be stated in the writ of summons.
The value of land which is the subject of any proceedings shall not be taken at less than £50, except by direction of the Court. Where a writ of summons contains a claim for an injunction besides some other claim only half the fee which is payable on an injunction shall be taken. In all other cases where one summons contains more than one claim, separate fees are payable on each claim.
The same fees are payable on a counter-claim as if the claim had been made by summons.
Penalty for under-estimating the amount involved or value of property in question to be three times the fee payable on the full amount or value in addition to the fee already paid.
- (b) Where an officer serves or executes more than one document or writ on the same route, one mileage fee only is to be charged, and it is to be apportioned amongst the documents or writs.
Where the Sheriff or Registrar executes any duty in person by direction of the Court he is entitled instead of mileage fees, to his actual travelling expenses and such travelling allowance as the Court may direct.
The fees paid to the Sheriff and Bailiffs cover all such expenses as cost of paper, preparation and posting up and delivery of notices, hiring and ringing of bells and the like.
For the performance of any duty not expressly provided for, an officer may receive such fee as the Court may allow.
- (c) The parties or either of them may by leave of the Court provide their own interpreter.
- (d) The travelling expenses of witnesses in all civil and criminal causes and at inquests shall be allowed according to the sums reasonably and actually paid.
An officer in the public service when summoned as a witness, except when summoned by the Crown, is allowed costs and travelling expenses as if he were not in the public service.
Where a witness actually attends for less than one hour, he may be allowed only half costs if the Court thinks fit.
- (e) No fee or remuneration shall be paid to a medical practitioner for the performance of a post-mortem examination instituted without the previous direction of the Coroner, unless the Coroner shall otherwise order.
Where an examination is made of the body of a prisoner or a person confined in a lunatic asylum by a Government medical officer, no fee shall be paid for giving evidence as aforesaid and a fee of one guinea only for a post-mortem examination or exhumation.

The revenue derived from dutiable articles imported by Parcel Post is included in the above table and amounted to £23,580. The corresponding revenue in 1935 was £22,244.

There were increased importations by Parcel Post of apparel, medicines and drugs, and stationery.

REVENUE.

The total Customs revenue collected by the Preventive Service in 1935 and 1936 was as follows :—

	Import.		Export.		Total.	
	1935.	1936.	1935.	1936.	1935.	1936.
	£	£	£	£	£	£
Eastern Frontier Stations	1,468	1,654	9,147	10,501	10,615	12,155
Western Frontier Stations	218	247	2	24	220	271
Total	1,686	1,901	9,149	10,525	10,835	12,426

The increase in import revenue is due to general trade recovery.

The increase in export revenue is entirely due to the increased exports of cocoa to Togoland under French Mandate.

126 Section 22. PRODUCTION AND NATURAL RESOURCES.

I.—AGRICULTURE AND LAND TENURE.

Land Tenure for the greater part consists of absolute ownership vested in the native states or stools (tribal unit) controlled by the Head-chief or stool-chief and elders. Family and private ownership exists in a lesser degree.

Concessions.—Every grant in writing by a native of any right or interest in or over land or in or to the minerals or produce of land in the Colony or Ashanti is a "concession" and such written grant is subject to the provisions of the Concessions Ordinance.

A sale or lease or agreement to sell or lease land in any town or village—from which sale, lease or agreement all right, interest and property with respect to minerals and precious stones is reserved—is *excepted* from the compulsory provisions of the Concessions Ordinance.

Assignments or sub-concessions are also *excepted* but must be registered.

The Concessions Ordinance prescribes the necessary mode of validation and regulates the conditions, mode of notice and enquiry, area and period of the grant.

In the Northern Territories prospecting and mining can only take place in accordance with the provisions of the Minerals Ordinance.

The Land and Native Rights Ordinance, 1931, of the Northern Territories, defines and regulates the tenure of land within the Protectorate and enacts that all native lands and all rights in and over the same from the date of the Ordinance shall be under the control of and subject to the disposition of the Governor and shall be held and administered for the benefit of the native. No title to the occupation and use of such lands shall be valid without the consent of the Governor.

Rights of occupancy are granted by the Governor for periods not exceeding 99 years. Rent is subject to revision at intervals of not less than 20 years in the case of building land and of three years in all other cases.

Except with the approval of the Secretary of State, no right of occupancy shall be granted to a non-native in respect of any area of land exceeding 5,000 acres.

The grant of a right of occupancy is effected by the completion of a contract between the Governor and the incoming occupier. Certificates of occupancy may be issued by the Governor. Before issue the land the subject of the certificate must be surveyed.

Mining leases are excluded from the operation of this Ordinance.

Crown Land :—

- Land for the Public Service is acquired in the Colony and Ashanti under the provisions of the Public Lands Ordinance. Compensation is payable. In the Northern Territories the Administration Ordinance provides for acquisition by Government on payment of compensation for buildings and growing crops.
- Kumasi, Takoradi and Tamale townships are Crown Estates. Land may be obtained in regular plots and on lease only at the approved standard rentals.
- The proportion of Crown Land to stool and privately-owned lands is very small and except in the towns mentioned in (b) there is generally speaking no Crown land available for leasing to the public.

Lands Registry.—A Land Registry exists in which deeds affecting land may be registered. The registry is attached to the Supreme Court, Accra.

To an unknown quantity used in native building construction, for agricultural implements and for domestic purposes must be added some 1,000,000 cubic feet utilized commercially by sawmills, the larger timber and engineering firms, mining companies and Government departments.</p> <p>Firewood is the sole fuel for domestic use and is still the most important fuel for industrial use. The annual domestic consumption is estimated at between 100 million and 200 million cubic feet and, on the figures obtainable, industrial consumption during the year exceeded 15 million cubic feet.</p> <p>Minor forest products are numerous and in daily use. <p>Enquiries as to eight new concessions for timber rights were published in the <i>Gazette</i>, affecting a total area of 161 square miles. Three certificates of validity were granted.</p> <p>Forty timber property marks were renewed and 41 new marks registered during the year.</p>	<p>The mahogany export remained approximately equal to that for 1935 and there are indications that the market is expanding. It is of interest to record that the exports of mahogany lumber during the year were 60 per cent higher than those of 1935.</p> <p>The exports of other timbers improved during the year, due mainly to the increased output of <i>Mansonia</i> logs and lumber.</p> <p>Considerable interest is being taken by local firms in timbers other than Mahogany and Odum (<i>Iroko</i>). Seasoned lumber is in demand and the timbers which have attracted most attention so far are Danta and Kussia (<i>Opepe</i>).</p> <p>Timber exports for the last six years have been :—</p> <table> <tr> <td>1931</td><td>636,127 cubic feet.</td></tr> <tr> <td>1932</td><td>299,936 " "</td></tr> <tr> <td>1933</td><td>245,105 " "</td></tr> <tr> <td>1934</td><td>642,742 " "</td></tr> <tr> <td>1935</td><td>1,092,773 " "</td></tr> <tr> <td>1936</td><td>951,260 " "</td></tr> </table>	1931	636,127 cubic feet.	1932	299,936 " "	1933	245,105 " "	1934	642,742 " "	1935	1,092,773 " "	1936	951,260 " "

3. FISHERIES.

Fishing is carried on in practically all the towns and villages on the coast. In most cases the fish caught are dried and sent up-country, but no reliable figures are available.

The catches vary enormously and in many districts fishing is only carried on intermittently; as a rule no fishing is done on Tuesdays and Fetish days.

Drift seine and ali nets are used and occasionally hook and line.

The boats used are almost entirely canoes, the lack of a deep-water harbour (except at Takoradi) rendering the use of steam trawlers an impossibility.

The fish caught are :—

Herring, sardine, skate, mackerel, horse mackerel, spanish mackerel, chele, catfish, shad, crayfish, sole, tongue sole, turbot, cod, turtle, red mullet, grey mullet, lobster, crab, oysters, prawns, guitar fish, sting ray, butterfly ray, devil fish, flat fish, pampano, thread fin, sea perch, sea bream, drum, hair tail or ribbon fish, barracuda, flying fish, file fish, globe fish, sucking fish, star gazer, gar pike, surgeon fish, wrasse, swallow wrasse, parrot wrasse, snapper, lady-fish, butter fish, cichlid, damsel fish, big eye.

These names do not necessarily represent the exact European equivalent.

The prices vary so much that any figures would be misleading. In some districts fish is exchanged for foodstuffs, but in most cases is sold to inland towns and villages.

The fishermen engaged are all British subjects.

GOLD COAST GEOLOGICAL SURVEY.

Gold.—The geological mapping of the Tarkwa Goldfield was continued and has now advanced sufficiently far to permit the preparation of a geological map on the scale of one inch to a mile. The more detailed investigation of the country in the vicinity of the mines must, however, await the completion of the topographical survey of the area. The general structure and stratigraphy of the goldfield are now clear and much information of value to the gold mining industry in relation to the lines on which future development of the goldfield should be carried out, has been collected.

Limestone and Rutile.—Several small deposits of limestone suitable for agricultural purposes were found in the Kpandu and Kete Krachi districts, and an interesting concentration of rutile (titanium dioxide) was noted near Matsi, north of Ho.

Water Supply.—A comprehensive survey of the water supplies of the Northern Territories was carried out and a detailed report was submitted to the Government describing existing supplies, and recommending improvements to existing supplies and the construction of some 28 dams and 2,100 wells.

Geophysical Investigations.—Electrical methods were used to advantage in the Northern Territories water-supply investigation for determining the depth of the water table, and the depth and nature of the underlying rocks. Reconnoitring traverses were run with a vertical-force magnetic variometer across the Tarkwa goldfield. The results indicate that the magnetic method would be useful in this area for mapping geological contacts, dykes, faults and magnetic beds.

Publications.—Bulletin No. 7—*The Bauxite Deposits of the Gold Coast* was published in 1936 and Bulletin No. 8—*The Geology of the Bosomtwi Caldera and surrounding Country* is now being printed.

6. INDUSTRIAL ESTABLISHMENTS AND MANUFACTORIES.

There are no important industries of a manufacturing nature in the Gold Coast.

The Shell Company of West Africa, Limited, has erected a petroleum bulk installation at Takoradi, which distributes imported petrol and oil in standard containers.

The brewery erected at Accra by Overseas Breweries, Limited, commenced operations in May, 1933. During 1935, the output was 387,181 gallons, on which excise duty amounting to £29,038 was collected. This company exports beer to other parts of West Africa in addition to supplying the local market.

Small mineral-water factories and ice-making plants exist at some of the large centres and there is an electric bakery at Accra.

There is also a number of purely native industries which cater for the needs of the local population, such as weaving, pottery, basket-making, wood cutting and carving, canoe building, vegetable dyeing, and the blacksmiths' and goldsmiths' craft.

REMARKS.

These questions are to be filled up in respect of each prison in the Colony.

Questions.

I. If the prison is on the separate system, is the separation complete? And if not, what is the separation enforced by day and night respectively?

Answers.

1. Tamale prison is on the separate system and to a large extent can be used as such. Sekondi Central Prison was originally built on the separate system, but owing to the increase of prisoners it is impracticable to enforce separation, except in the case of a condemned prisoner or for the purposes of punishment. A portion of the building at Accra Ussher Fort Prison also has separate cells but for the same reason separation can only be enforced in exceptional cases.

Apart from the exceptional cases mentioned above, prisoners work and sleep in association.

2. There are wards for females separate from the male wards.

II. If not on the separate system, what provision is there for the supervision of the prisoners while in association?

II. The prisoners work in association both inside and outside the prison walls, and are at all times under the supervision of Warders.

III. How many cells are there; and how many associated wards?

III. The following table shows the number of associated wards in the various prisons in the Gold Coast.

Questions.

IV. Taking the *average* number of prisoners in gaol, how many cubic feet of space are there for each prisoner during the hours of sleep ?

And what superficial area ?

VI. Is penal labour—that is, labour by treadmill, crank or shot drill—in force ?

VII. If so, during what periods of imprisonments, in respect of what classes of prisoners, and during how many hours, is such penal labour enforced ? In stating hours of treadwheel labour, give, first, the total time on and off at the wheel, etc., secondly, the length of spells and intervals of rest.

VIII. What kind of labour, other than penal labour, is in use ?

IX. If the prisoners are employed beyond the walls of the gaol, state—

1. On what kind of work they are so employed ?

2. How are they supervised ?

3. How many escapes of prisoners, while being employed beyond the gaol, have taken place during each of the last three years ?

4. How are the profits of their labour accounted for ?

X. What was the total annual cost of the prisons during the year 1936 ?

Answers.

4. By monthly returns from each prison in which the Convicts' work is valued according to current rates.

The receipts from the workshops are paid into the Treasury.

X. The total annual cost of the prisons in the Colony, Ashanti, and the Northern Territories and Togoland under British Mandate in 1936 was £41,647.

Questions.

XI. What was the annual amount of the prisoners' earnings during 1936?

XII. What is the number of the hours allotted for sleep? And, if sleep is in association, are the dormitories lighted; and how often are they patrolled during the night?

XIII. What were the number and nature of the punishments inflicted for offences committed by prisoners undergoing imprisonment?

Answers.

XI. (a) Actual cash earnings (*i.e.*, amounts paid into the Treasury for private work) in 1936 were £6,406.

(b) The estimated gross value of prison labour during 1936 as shewn by returns from various prisons was £24,705.

XII. Eleven and a half hours. Sleep is in association, and the cells are lighted from outside at Accra, Kumasi, Obuasi and Sekondi. The Prison Warders on duty patrol every fifteen minutes. Tell-tale Clocks are used. The Keeper of the Prison makes a surprise visit at least once a week during the night.

Questions.

XIV. Is there, or are there, any Chaplain or Chaplains of any, and what, religious persuasions?

XV. Are religious services regularly, or otherwise, performed for the benefit of the prisoners of any, and if any, what religious persuasion?

XVI. Are Roman Catholic Priests and Dissenting Ministers allowed free access to prisoners of their own persuasion? And are they apprised when prisoners of their respective persuasions enter the prison?

XVII. What provision is made for the education of prisoners?

XVIII. On what conditions are remissions of imprisonment granted?

XIX. Have Coroner's Inquests been held on every occasion of a death in prison during the past year? And what were the verdicts?

XX. 1. What was the sanitary state of the prisons during the year, 1936.

2. What were the prevailing diseases?

XXI. What are shortly, the rules as to Diet?

Answers.

XIV. There are no Chaplains appointed, but the Clergy of the Society for the Propagation of the Gospel, the Wesleyan, the Scottish, and Roman Catholic Missions visit the various Prisons.

XV. At Ussher Fort and James Fort, Accra, services are held every Sunday by representatives of C. of E., R.C. and Wesleyan Missions.

At St. Jago Fort, Elmina, once a fortnight by the Wesleyan Minister on Sundays; at Cape Coast regularly on Sundays, by the Clergymen of the S.P.G. and the Wesleyan Mission.

At Kumasi, by a representative of the S.P.G. and R.C. Mission every Sunday.

At Sekondi, by a Clergyman of the S.P.G.; also by the Roman Catholic Priest, Wesleyan Ministers and Salvation Army.

XVI. Yes, but at the prisoner's own request or in cases of prisoners under sentence of death. It is not, however, customary to apprise them when prisoners of their respective persuasions enter the prison.

XVII. None.—They are provided with books if they ask for them and can read; at least 75 per cent are illiterate.

XVIII. Every convict sentenced to six months and upwards has his time of detention represented by a certain number of marks, and, if, in accordance with the Rules in force, he by hard and steady labour earns that number of marks before the expiration of the term for which he be sentenced, he shall be discharged.

Convicts with sentences of over six months and under two years can by good conduct and industry earn one-sixth part remission of their sentence. Two years and over they can earn one-fourth remission.

Remissions are also granted by the Governor as acts of grace upon the recommendation of the Chief Justice or Director of Prisons or Medical Officer.

XIX. Yes. The verdicts were all deaths from natural causes or by hanging in execution of the sentence of the Court.

XX.—1. Generally good. Ventilation improved where necessary.

2. Diarrhoea, Dysentery, Ulcers, Malaria, Gonorrhoea, Guinea-worm, Chickenpox, Phthisis, and Yaws.

XXI. (See table on following page.)

It is not always possible to supply exactly the same diet as laid down according to the Prison Regulations for diet owing to local conditions, but the weights are always constant.

(2) STEAM AND MOTOR SHIP SERVICES.

Line.	Destinations.	Passenger or Cargo.	Frequency of Calls.	Mail Contracts.	Other features of the Contracts, and other remarks.
Elder Dempster Lines, Limited.	West African Ports.	Both.	Frequently.	This Company is under contract with the Postmaster-General for conveyance of His Majesty's Mails between Liverpool and West and South-West Coasts of Africa.	Regular sailings are maintained between Liverpool and West African ports for mails, passengers and cargo. There are also regular sailings from London. A mail steamer of this company leaves Liverpool for Calabar and Port Harcourt alternately once a fortnight. The Port Harcourt Service calls at Madeira, Las Palmas, Bathurst, Freetown, Takoradi, Accra, Lagos and Port Harcourt. The Calabar Service calls at Madeira, Freetown, Monrovia, Takoradi, Accra, Lagos, Calabar, Victoria and Suellaba (for Duala); the usual length of voyage being 13 days to Gold Coast ports. Cargo steamers are despatched from Liverpool once every two weeks during the busy season and three weeks during the slack season calling at the principal Gold Coast ports. Length of voyage about 21 days. At present cargo steamers are despatched from New York every four weeks and call at the principal Gold Coast ports both outwards and homewards, the average length of voyage being 28 days. Cargo steamers are despatched from Hamburg every three weeks calling at Rotterdam, Antwerp and London for the principal Gold Coast ports. Average length of voyage from Hamburg to the first port of call on the Gold Coast is 21 days. Cargo steamers are despatched about the 25th of each month from Montreal for Freetown, Cape Town, Port Elizabeth, East London, Durban, Lourenço Marquez and Beira, and they are scheduled to arrive at Cape Town on the 22nd of the succeeding month. This Service occasionally calls at Takoradi homewards.
Chargeurs Reunis Line.	do.	do.	Monthly.	—	Mail steamers sail from Bordeaux, and call at Accra on the homeward voyage for passengers and cargo once a month. Cargo steamers call at regular intervals outwards and homewards.
Services Combines Fabre-Fraissinet.	do.	do.	Frequently.	—	Passenger and cargo steamers sail from Marseilles, and call frequently outwards and homewards at Gold Coast ports.
American West African (Barber) Line.	do.	Cargo.	Twice monthly.	—	Cargo steamers with passenger accommodation are despatched twice monthly from New York and Gulf of Mexico ports calling at principal Gold Coast ports. These sailings are augmented during the Colony's cocoa season to relieve congestion of cocoa destined for America. The voyage from New York takes 28 days. Calls are also made at all ports to Loanda including the Belgian Congo.
United Africa Company, Limited.	do.	do.	do.	—	Cargo steamers with limited accommodation for passengers are despatched from Liverpool and the Continent about two sailings per month and call outwards at all Gold Coast ports. They call homewards as inducement offers.
Société Navale de l'Ouest.	do.	do.	Monthly.	—	Cargo steamers sail monthly from Hamburg, Antwerp, Havre and Bordeaux and call at principal Gold Coast ports. They call homewards at continental ports as inducement offers.

<i>Lorries.</i>					
Albion (a)	Great Britain	30 and 40 cwt.	Weights of chassis are those of standard types. The bodies are usually made locally, and vary greatly in weight, ranging from a light platform to heavy box and covered-in types.	This cost is governed by the class of road in the locality where the transport is required. Generally the rates are from 4½d. for long distances where heavy lorries can be used, up to 1s 8d. for short runs or where light lorries only can be used.	All fitted with single pneumatic tyres. Lorries are usually used with two-wheeled trailers. Where such trailers are used the capacity of vehicle is raised by 7-25 cwt. over the nett lorry capacity. (a) Used with one four-wheeled trailer carrying up to 3½ tons. Maximum governed speed allowed 12 m.p.h. (b) Used with three four-wheeled trailers for town work: total load capacity 12½ tons. Maximum governed speed allowed 5 m.p.h.

GOLD COAST SHARE OF FOREIGN POSTAGE.

The Gold Coast retains the whole of the postage on letters, etc., and under a system of apportionment contributes the sum of £1,115 annually to the United Kingdom towards the cost of the Sea Service.

The postage on parcels is divided between the Gold Coast, the Steamship Companies and the country of destination.

There are harbour facilities in the Gold Coast at Accra and Takoradi.

Ships lie in open roadsteads and are worked by surf-boats at Axim, Cape Coast, Half Assini, Keta, Ada, Winneba and Saltpond, which have resident officers of Customs.

Denu, Bonyere, Atwabo, Ahobere, Elmina, Dixcove, Butre, Adjua, Shama, Sekondi and Apam are sufferance wharves for lading and unloading, Beyin, Prince's Town, Twin Rivers and the mouth of the Ankobra River for lading only: Customs Officers attend by arrangement.

At Accra a small breakwater provides a small sheltered area for surf-boats only. There is a jetty provided with cranes which enables cargo to be landed direct from lighters and surf-boats.

Takoradi harbour provides sheltered accommodation for shipping at all states of the tide and has about 150 acres of deep water. Vessels drawing up to 27 feet 6 inches can discharge and load alongside direct into transit sheds or trucks. Moorings are also provided for vessels of similar draught, and cargo may be dealt with by lighters. Cranes at general cargo berths are capable of lifting up to 2 tons and those at the lighter wharf up to 3 tons. A 10-ton crane is also provided at the lighter wharf and a 25-ton crane can be supplied at the main cargo wharf upon due notice being given.

ACCRA.

1. At bar or entrance what is :— (1) the minimum width ? (2) the minimum navigable depth, L.W.O.S.T. ? <i>Note.</i> —If between the entrance and the deep sea there are bars or shoals where a lesser depth occurs than the minimum indicated above, a list of such obstructions and of the depths over them (L.W.O.S.T.) should be given.	The harbour of Accra is an open roadstead, ships lying outside.
2. In the approach channel from bar or entrance to berthing accommodation, what is :— (1) the minimum and maximum width ? (2) The minimum and maximum depth, L.W.O.S.T. ?	See above.
3. What is :— (1) the rise and fall of tides : (a) ordinary springs, (b) ordinary neaps ? (2) the rise of ordinary neaps above L.W.O.S.T. ?	(a) 4·66 feet. (b) 2·72 „ (approx.) Neaps range 3·69 (approx.)
4. What is the maximum available depth of water :— (a) at piers or wharves L.W.O.S.T. ? (b) In the case of enclosed docks in the entrance locks, if any, and at dock quays, H.W.O.N.T. ?	Jetty 6' 9". 1' 9" at end of breakwater. No lighters can come alongside breakwater at low water.
5. What are the respective lengths of piers, wharves or (in the case of enclosed docks) dock quays where the maximum depth of water referred to in Question 4 exists ? What percentage does the total of these lengths bear to the total accommodation at the port ?	Jetty 390 feet. Depth of water L.W.O.S.T. 6' 9" at seaward extremity shelving to nothing at landward extremity. Breakwater 1,330 ft.
6. What are the dimensions (length, loaded draught and beam at that draught) of the largest vessels which under existing circumstances, can be :— (a) berthed alongside any pier or wharf (L.W.O.S.T.)
